

Project Worksheet

Start Date	8/10/2010	End Date	8/17/2010	Project Length	05	Days
-------------------	-----------	-----------------	-----------	-----------------------	----	-------------

Description:

You are going to create a research presentation on a career of your choice. Your career choice has to be legal (no drug dealers) and ethical (no strippers or porn stars). Your career must be realistic, for example a sports career can only be used if you have an individual state or national ranking in that sport. If you have a question about your career choice, see your instructor for more information. You will prepare a class presentation about your career using Powerpoint.

Goals:

1. To research an assigned topic.
2. To assess your ability to present your information to an audience using presentation software.

Content:

You will need to research your career using the Internet and Internet search engines and printed publications or books. Have 14 total slides as listed in the technical information below, but no more than 16 total slides.

Clipart or photos at least every 2 slides. Slide Transitions and custom animation are also needed as well as a consistent layout (use a presentation template.)

Technical:

Your presentation will cover the following topics. Each topic will have one or more slides on the topic.

1. Title Slide with Name of Career, Teacher, Student and assignment information
2. Introduction - Overview of your career
3. Working Conditions (explain the setting where your career performs the work)
4. Compensation (What is the salary range for your career (beginning, middle & end))
5. Earnings and Benefits (use starting salary for earnings)
6. Training Additional Training Requirements
7. Education Requirements Skills
8. Employment Outlook Advancement Possibilities
9. Related Occupations Career Information Sources
- 10 & 11. Include Any Other Significant Points in this section
- 12 & 13. Conclusion - Why you selected this career.
14. References - Works Cited page (need 3 sources properly cited and 1 must be a BOOK)

14 slides total as listed above. Clipart or photos at least every 2 slides. Slide Transitions and custom animation are also needed as well as a consistent layout (use a slide template.)

Resources:

Media Center and the Internet.

Evaluation:

Your assignment will be evaluated by your instructor according to the technical and content aspects listed above using a project grade rubric.

Standards:
